Corrosion Management Solutions

Rohrback Cosasco Systems (RCS), has been the world leader in corrosion monitoring since 1950.

Corrosion is the leading cause of process equipment and piping failure, requiring companies to pay billions of dollars annually in replacement costs and downtime.

RCS offer a wide range of solutions to corrosion problems in a variety of industries, including

- Oil and gas,**
- Petrochemical,**
- Water treatment,**
- Chemical,**
- Pulp and paper,**
- & Pharmaceutical.**

Since 1990, RCS have introduced a continuous stream of products which help customers obtain and analyze corrosion data that was previously inaccessible.

Rohrback Cosasco Systems offers the largest selection of **Instruments Probes & Retrieval Equipment**

The company's extensive experience allows monitoring in the harshest environments and under the most extreme conditions of temperature and pressure.

The wide range of instrumentation, from portable instruments to fully integrated systems, assures a perfect match for your specific needs.

Rohrback Cosasco Systems products and services application matrix on the second page can provide you with a quick reference guide as to what is available.

Savcor Products are the only fully licensed supply distributor for Australia & New Zealand.
